Unfinished Business Gameplay: adithyaragh1.online/unfinished-business

Unreal Engine 5 gameplay programmer (C++, Blueprints, GAS, replication, EOS online sessions). Solo-built Unfinished Business, Game of the Year at ICAT 2025, and built multiplayer gameplay and lobby systems for a six-player UE5 game at Chillout Studios.

TECHNICAL SKILLS

Engine & Development: Unreal Engine 5, Blueprint scripting, gameplay systems, UI, AI, interactions.

Multiplayer & Online: Replication, Epic Online Services (EOS), EIK, Epic sessions, lobbies, session codes, voice chat.

Gameplay Frameworks: Gameplay Ability System (GAS), Gameplay Tags, Enhanced input actions.

Additional: 2D/3D map design, trailer cinematics and animation, character voice performance.

Programming: C++ (character and GAS ability base classes), Blueprints.

PROFESSIONAL EXPERIENCE

Lead Game Developer Chillout Studios | Joined as Game Developer Intern | May 2025 - Nov 2026

Rock, Paper & Scissors : Blood Carnage

• Wrote the C++ base character class and base GAS ability classes, extended per ability in Blueprints.
• Developed UE5 multiplayer gameplay and online-session systems, integrating Epic Online Services through the EIK SDK and supporting Epic session transitions.
• Implemented lobby workflows for session discovery, session-code joining, map and game-mode selection, and voice chat; supported match setups of up to six players.
• Built GAS gameplay logic with Gameplay Tags and Gameplay Effects, worked with replicated gameplay state, and customized the Ability System Component to resolve a root-motion issue.
• Led 3 animators and character artists: specified the animations needed, gave reference material, and helped sculpt and customize characters.
• Designed the game map in 2D and 3D and created a few trailer cinematics.

Game Programmer Intern | Karmaratha Studios | Sep 2024 - Nov 2024

Leo & Nora

• Implemented vertical split-screen presentation and keyboard/gamepad input for a two-character local co-op prototype.
• Built gameplay UI flows for interaction, emotes, collectible counters, and end-of-game grading.

SELECTED GAME PROJECTS

Unfinished Business | Solo-developed UE5 action-adventure | 2024–2025

• Designed and developed a solo action-adventure featuring shooting, swimming, vehicle mechanics, map navigation, interactions, enemy AI, combat feedback, and UI.
• Created the game's urban environment and performed character voices, using AI voice-conversion workflows as part of the production.
• Won Game of the Year (Best Game of the College), ICAT 2024-25 graduation showcase.

Undead Unleashed | BYOG / IGDC game-jam project | Playable build: azadayne.itch.io/undead-unleashed

• Built a playable Unreal Engine 5 prototype in a three-day game-jam sprint using Blueprints, collaborating with one teammate.

EDUCATION

BSc Game Design and Development | ICAT Design and Media College | 2022 - 2025
